There are so many ways to travel. The most common way to travel is probably in some type of motorized vehicle. If you are travelling with your family and you are not going far away, you could take a car. If you want to go somewhere with a lot of people, you could go in a van or bus. If you need to travel through the water, boats are another kind of transportation. We can go on small boats to travel to a close place. Big ships can take us to faraway lands. Submarines travel in the water also. They go way down deep into the water. Airplanes are also a great way to travel. Many people choose to fly in Jet airplanes if they need to go far away and want to get there quickly. An airplane is fun to ride in because you can see the Earth from way up high.
